To support our growth, we are currently seeking a highly motivated

## **Application Engineer**

As a member of the our newly formed North America team, your mission will be to train and assist our customers and to sustain the sales effort. You will be a key person to pass on the know-how and provide key competencies to our customers in fields of flexible feeding, machine vision, robotics, PLC programming, general automation and process optimization.

### **Your tasks:**

- Support sales effort by performing and documenting feasibility studies
- Provide technical support (pre / post sales) and training per email, phone and/or in person
- Maintain knowledge database and collaborate to facilitate the rapid resolution of customer issues
- Assist in logistics and shipping

### **Your qualifications:**

- Technician or Engineer in industrial automation, microengineering, mechanical or electrical field
- Machine vision experience, knowledge and experience of PLC programming a plus
- Fluent in English, good knowledge of French or Spanish would be desirable
- Engaged, customer oriented, organized, responsible and independent personality with excellent interpersonal skills
- Availability to travel (Domestic as well as International), driving license required.

We offer an interesting position with varied activities as described above. This full-time position is located at Asyri! US Inc. (Minneapolis, MN). Asyri! is part of the Nivalis Group SA located in Villaz-St-Pierre, Switzerland (Asyri!'s Headquarters/Production). You have the chance to join a dynamic international team and contribute actively to the growth of the company.

Beginning: immediately or upon agreement.
